The Tarot Serie

The Invisible Eye Productions in 2009 inaugurated a series of recordings called thematic THE TAROT SERIES, very particular in its conception and execution.
Indeed, this year, will be published in 22 cdr 3 "(8 cm in diameter) every two a month, each devoted to a more arcane of the Tarot.
Each release will contain 3 or 4 tracks with a theme paper, with dark ambient groups, industrial and noise, with some draft but different theme with the sounds, both Italians and foreigners.
In the end of each mini cd then we include a track spoken with the explanation in English of the paper, received from Troy Southgate, just known for his militancy in groups such as Sagittarius, Horologium. Seelenlicht, Herr.
At the end of releases will be issued of bonus material to complete the collection, both paper and sound, always a topic on Tarot, including an audiobook in cdr with an essay in English on the Tarot written by me.
The edition will be limited initially to 30 copies for each release, and the pack in mini dvd case will contain a booklet of 3 pages with the notes of the groups, the explanation in English of the paper and an illustration of the Tarot card of Vladislav Kuzel.
If the series is successful there are any reprints.
